**Bioequivalent to
FluCort®*** (flumethasone)

Consistent and Reliable
Non-Compounded, Longer Shelf Life

Commercially Available
Only FDA-Approved Flumethasone
ANADA # 200-612

0.5 mg/mL Glucocorticoid

Bimasone is recommended for the various rheumatic, allergic, dermatologic, and other disease states which are known to be responsive to the anti-inflammatory corticoids.

Flumethasone has the highest relative glucocorticoid activity (120) and long duration of effect compared to other commonly used corticosteroids.

SIZE	ITEM #
