MoxiSolv Injection (moxidectin)	14 Days	35 Days	14 Days	42 Days	42 Days
Ivomec® Injection (ivermectin)	21 Days	14 Days	21 Days	28 Days	28 Days
Dectomax® Injectable (doramectin)	21 Days	14 Days	0 Days	28 Days	28 Days

Short pre-slaughter withdrawal period as compared to other injectable dewormers

Dung beetle friendly – mutually beneficial parasite control

A healthy population of dung beetles is environmentally beneficial and will also help you in your efforts to control internal and external parasites by reducing breeding environments for horn flies and exposure to gastrointestinal nematodes.
